

# Fitted and Flexfit Jacket Sizing

With arms relaxed down at sides, measure fullest part of chest/bust while keeping tape measure parallel to the floor. Number of inches equals your chest/bust size.

**Chest/Bust**

Place hand on hip and bend arm 90°. Measure from base of neck along shoulder to elbow and down to your wrist. Number of inches equals your sleeve length.

**Sleeve**

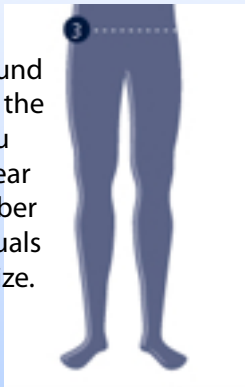

- Jackets are designed to have a snug fit.
- To ensure the proper fit, we recommend trying on a sizing sample.
- Sleeve lengths can be altered in 1" increments for an additional \$10 charge per jacket.
- Body lengths can be altered in 1" increments for an additional \$10 charge per jacket.

The chart below indicates the size most people would be comfortable wearing. If you fall in between sizes, order the next size up.

# Basic Pant Sizing

Measure around your waist at the height you normally wear pants. Number of inches equals your waist size.

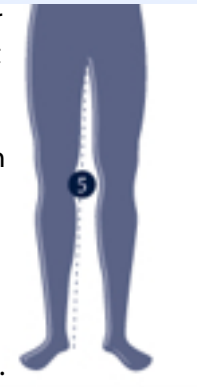

**Waist**

Stand with feet together and measure around the fullest part of the hips while keeping the tape measure straight and parallel to the floor. Number of inches equals your hip size.

**Hips (Women Only)**

Measure similar style pants that fit you well, from crotch seam to bottom of pants. Number of inches equals your inseam length (round to nearest inch).

**Inseam**

- Choose your fit based on the largest measurement taken (excluding inseam). For men this will most likely be the waist, and for women the hips.
- Inseam can be adjusted in 1" increments for an additional \$5 charge per pant.
